March 2018- Present
- Conduct outpatient pediatric patients referred from medical professionals with wide variety of neurological and neurodevelopmental presentations
- St. Vincent Hospital Indianapolis** **Indianapolis, IN**
Pediatric Neuropsychologist
Sept. 2017-Mar. 2018
- Conducted outpatient pediatric patients referred from medical professionals with wide variety of medical, psychiatric, and developmental presentations
- Indiana University School of Medicine** **Indianapolis, IN**
Pediatric Neuropsychology Fellowship, Co-Chief Resident
Sept. 2015-Sept. 2017
- Worked with pediatric patients referred from medical professionals with wide variety of medical presentations to evaluate neuropsychological factors given complex medical histories. Additionally, participated as a member of the multidisciplinary treatment team on the inpatient pediatric rehabilitation unit at Riley Hospital for Children. Received extensive didactic training through the departments of Neurology and Psychiatry.
- St. Vincent Indianapolis/St. Vincent Neuroscience Institute** **Indianapolis, IN**
Pre-doctoral Intern
July 2014-June 2015
- **Neuropsychology Rotations:** Conducted outpatient neuropsychological evaluation with patients ages 18 months to 90 years old referred from medical professionals with wide variety of medical and psychiatric presentations. Attended to adult inpatient referrals for capacity assessment. Completed minor rotation in outpatient concussion clinic.
 - **Health Psychology Rotations:** Participated in weekly multidisciplinary rounds for head and neck oncology and hematology/oncology teams. Conducted initial health and behavior assessments for inpatient referrals. Provided brief psychotherapy and

psychoeducation for patients in the inpatient setting using predominantly CBT and motivational interviewing, while incorporating aspects of other treatment modalities as deemed appropriate. Served as a behavior health consultant in the primary care setting. Attended to same-day referrals. Provided follow-up individual therapy sessions for patients using CBT and motivational interviewing techniques.
